

### **Health Care that Starts with You!**

Join a truly mission-driven organization! Independent, nonprofit UCare is recognized as one of the Minnesota's leading health plans. We provide more than 225,000 members across Minnesota and western Wisconsin with the health coverage plans and services they need to maintain and improve their health. The innovative coverage we create makes a difference for Medicare-eligible individuals, individuals and families enrolled in Minnesota Health Care Programs, such as MinnesotaCare and Medical Assistance, and disabled adults with special health care needs.

UCare is growing in size, membership, products, geographic coverage, and employees. We're an organization that's going places. Be part of a team that cares about you, be part of UCare.

### **Quality Improvement Specialist**

The Quality Improvement Specialist is responsible for the design, development, implementation, evaluation and reporting of one or more evidence based health improvement programs as they relate to the UCare strategic and annual quality plan. This position will have primary accountability for leading teams, coordinating and collaborating with internal and external stakeholders, meeting project objectives and reporting to regulatory entities and leadership on project status and outcomes. Responsible for all project management and process improvement activities as they relate to designated projects.

#### **Qualifications:**

- Master's degree in health science, nursing, public health, health promotion, business or other related field is preferred.
- Candidates with a Bachelor's degree in a same field along with equivalent experience will also be considered.
- Minimum 2-3 years of relevant experience in quality improvement and 5 years of experience in health care delivery system required.
- Demonstrated process improvement and project management skills.
- Strong verbal and written communication skills.
- Formal training in quality improvement and/or project management strongly preferred.
- Education in statistical analysis and experience in a managed care or health insurance setting preferred.
- RN strongly preferred.

#### **Rewards**

Enter a highly collaborative environment where people are truly engaged, and feedback is valued. You'll enjoy a competitive salary and benefits, as well as a host of other perks, including a nationally recognized wellness program, and a bright, open, award-winning office space in Northeast Minneapolis—just minutes from major freeways and retail centers.
