

WEB HOSTING & DESIGN SERVICES

Web sites are an essential vehicle for effective governance, basic communication, and citizen/member outreach. AMC strives to make this process as simple as possible for member counties and other affiliated organizations by providing this service in the most cost-effective and easy-to-achieve manner possible.

AMC will design, create and implement an AMC-hosted website on behalf of its member counties and other affiliated entities/organizations, resulting in a professional site that will be published to a virtual domain. The one-time website design and set-up fee is \$1,000 for the first calendar year.

The initial website set-up and design will include the following:

1. Setup your site and domain name.
2. Design the website, which will include a unique design to be used throughout the website to ensure consistency of style.
3. Please see any of the web sites listed on this page for basic examples of the initial framework (pages) included in most sites.
4. The website will contain hyperlinks to other related sites, documents and links to email addresses (must be provided by the county).
5. The website will allow for expansion.
6. The initial website design will be complete upon approval of website design and successful upload to the virtual domain.

AMC will be responsible for maintenance, including changes, additions, deletions, design and content, based upon direction and information provided by the county or organization via email.* AMC maintains server storage of the website, at a flat rate of \$750 per year for member counties and smaller county-related organizations, and \$100 per month for other affiliated organizations/partners.

*An effective website should be updated on a regular basis. The website content is the responsibility of the county and this end is easily met by forwarding changes, postings, etc. to AMC. The county website will be as current as the information that is forwarded to AMC.

AMC secures appropriate domain names for each web site. Counties receive an address of www.BLANKcounty-mn.us which is also made accessible via the state-owned web address of www.co.BLANK.mn.us.
