

## **GIS Technician**

Austin Utilities is seeking a talented and self-driven GIS Technician to join our Engineering Services team. The successful candidate is responsible for developing, operating, and maintaining the GIS system for the water, natural gas, electric, and fiber-optic utilities. The GIS Technician will be responsible for GIS program planning, coordination, GIS mapping, database management, and application development. Prepares drawings, recording and filing of engineering documentation, routine and complex technical engineering related work in the areas of water, natural gas, electric and fiber optics lines, distribution system components and utility facilities in the office and in the field.

Why should you apply? Austin Utilities has been recognized as one of the “Best Places to Work” in Southeast Minnesota. We put your safety first, and have been the recipient of several safety awards for over the past six years. As an integral member of our engineering team, this position provides an opportunity for personal and career development to advance your professional career as you demonstrate your expertise within our organization. Austin Utilities has an Enterprise License with ESRI, providing all the tools needed for developing a successful GIS System. You will have the opportunity to work with a very dedicated team of professionals who are passionate in their service to our community. And, we offer a work environment where work-life balance is realized.
